### DETAILED ACTION

This application was filed 11/28/2005 and is a 371 of PCT/AU03/01446 (11/2/2003) which claims priority to AU 2002952453 (11/1/2002). Claims 13 and 14 have been canceled. Claims 1-12 and 15-18 are before the Examiner and are subject to the following lack of unity of invention.

### *Election/Restrictions*

1. Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group 1, claim(s) 1, 6-12 and 15-18 (in part), drawn to compounds, compositions and methods of treatment wherein X is N and R12 with R8 does not make a tricyclic core.

Group 2, claim(s) 1, 6-12 and 15-18 (in part), drawn to compounds, compositions and methods of treatment wherein X is N and R12 with R8 makes a tricyclic core.

Group 3, claim(s) 2-5 (specifically) and 1, 6-12 and 15-18 (in part), drawn to compounds, compositions and methods of treatment wherein X is O or S.

2. The inventions listed as Groups 1-3 do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons: The common core for all three groups is a phenyl ring, which is well known in the art for many different utilities such as solvent or reactant to make other compounds.

Applicant is advised that the reply to this requirement to be complete must include (i) an election of a species or invention to be examined even though the requirement may be traversed (37 CFR 1.143) and (ii) identification of the claims encompassing the elected invention.

The election of an invention or species may be made with or without traverse. To preserve a right to petition, the election must be made with traverse. If the reply does not distinctly and specifically point out supposed errors in the restriction requirement, the election shall be treated as an election without traverse.

3. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

Any inquiry concerning this communication or earlier communications from the examiner should be directed to D. Margaret Seaman whose telephone number is 571-272-0694. The examiner can normally be reached on 730am-4pm, Monday-Thursday.
